COMPANY PROFILE

PT ESKAPINDO MATRA

 **PT. ESKAPINDO MATRA**
CONSULTING ENGINEERS

COMPANY'S BACKGROUND

PT. ESKAPINDO MATRA (ESKA) is a private engineering consulting firm in Indonesia involved in various consulting services in the field of project management, transport design and supervision, human resources development and capacity building as well as other relevant technical consulting services. PT. Eskapindo Matra was established in Jakarta in 1980, and until this date ESKA has been active in pursuing various project management and infrastructure development projects, specifically projects implemented by the national government, regional and provincial governments, private sectors (companies, both industrial and non-industrial) as well as international funding institutions such as Asian Development Bank (ADB), International Bank for Reconstruction and Development (IBRD), Japan International Cooperation Agency (JICA) and the World Bank (WB).

Development in Indonesia serves as a link that requires experts and technical specialists with professional engineering experience to provide the required consulting services in economic and infrastructure development project. In relation to this, ESKA has been a great conduit to national economic and infrastructure development in the country. ESKA is capable and experience in undertaking a lead role and as a partner for various economic and infrastructure development projects implemented by both central and regional governments in various sectors such as transportation, natural resources management, agriculture and forestry, human resources and capacity building and many more. ESKA is very active in participating in the identification of projects that need to be developed requiring the tedious process of compiling regulations and policies that will soon be integrated in the national economic and development plans, both at the central and regional, provincial levels. Entering in the new millennium, ESKA is proactive and determined to undertake consulting services specifically on the implementation and management of projects in the following line services: (i) Project Implementation and Management; (ii) Design Engineering, (iii) Survey Works; (iv) Feasibility Study; (v) Regional Planning and Development; and (vi) Finance and Administration. ESKA considers the importance and advantage of having professional and well-qualified manpower resources, as such it has a network of consultants, technical experts and specialists that are professional, qualified and well-experienced in the field consulting. The force of this organization is personal integration, which enables them to be greatly satisfied in carrying out their respective tasks and responsibilities. This work condition facilitates a creative and productive unit that contributes to career development.

Throughout its career journey, ESKA has received several awards, including in November 2023 where ESKA won a Certification of Appreciation as Provider of Goods and Services with Excellent Performance in Goods and Services Procurement Activities within PT Jasa Marga (Persero) Tbk for the 2022 Period.

OUR EXPERIENCES

AUTOMATED PEOPLE MOVER SYSTEM (APMS)

Location : Tangerang Banten

Client : PT. Angkasa Pura II

Period : 2016 - 2019

Overview : In order to add the facilities in serving passengers and airport guests who need transportation around the Soekarno Hatta Airport area, PT. Angkasa Pura II (Persero) as the management of Soekarno Hatta International Airport provides a means of transportation with an AGT (Automated Guided Way Transit) system of a rubber tire type or so-called Automated People Mover System (APMS) of double track. APMS was built to replace the Free Shuttle Bus which currently serves airport guests who require transportation from one terminal to another. APMS is designed to serve guests of the Soekarno Hatta airport from Terminal 3 at the east end of the airport to terminal one at the western end of the airport. The APMS development project is divided into two work implementations carried out by two separate Executing Contractors, namely:

1. Infrastructure is implemented by the implementing contractor, WIKA - INDULEXCO KSO

2. Procurement and System implemented by the implementing contractor, LEN - WOJIN CONSORTIUM

HIGHWAYS & BRIDGES

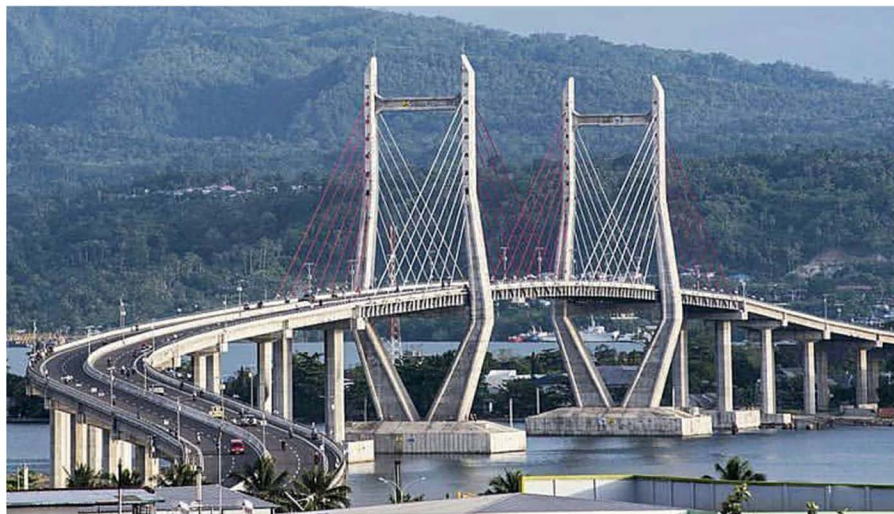

QUALITY ASSURANCE FOR NUSA DUA - NGURAH RAI AIRPORT - BENOA TOLL ROAD

Location	: Mandara - Bali
Client	: PT. Jasamarga Bali Tol
Period	: 2012 - 2013
Overview	: This was the first Indonesian toll road project built on the sea with a length of 12.7 km, where 10 km was above the sea. The Nusa Dua - Ngurah Rai - Benoa Toll connects airport, port, and tourism areas in Nusa Dua, Bali and is one of the priority programs of Central Government in 6 Economic Corridors. In addition to improving Balinese economy development, The toll road is needed to support APEC event, which will be held by Indonesia in 2013; the toll road will be finished be operated by Quarter 1, 2013. Also in terms of time, the construction is about 14 months.

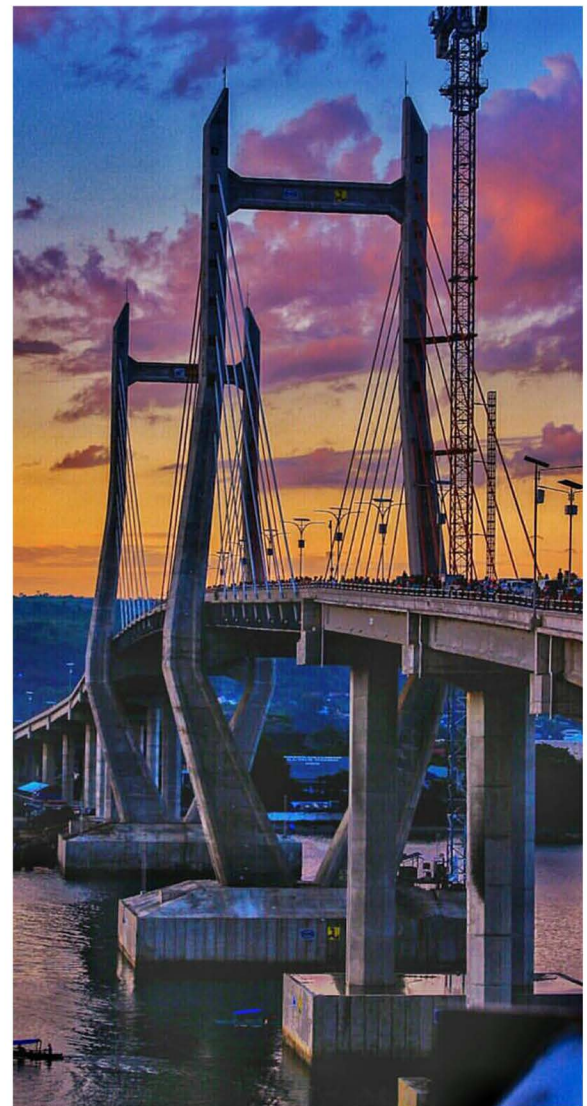

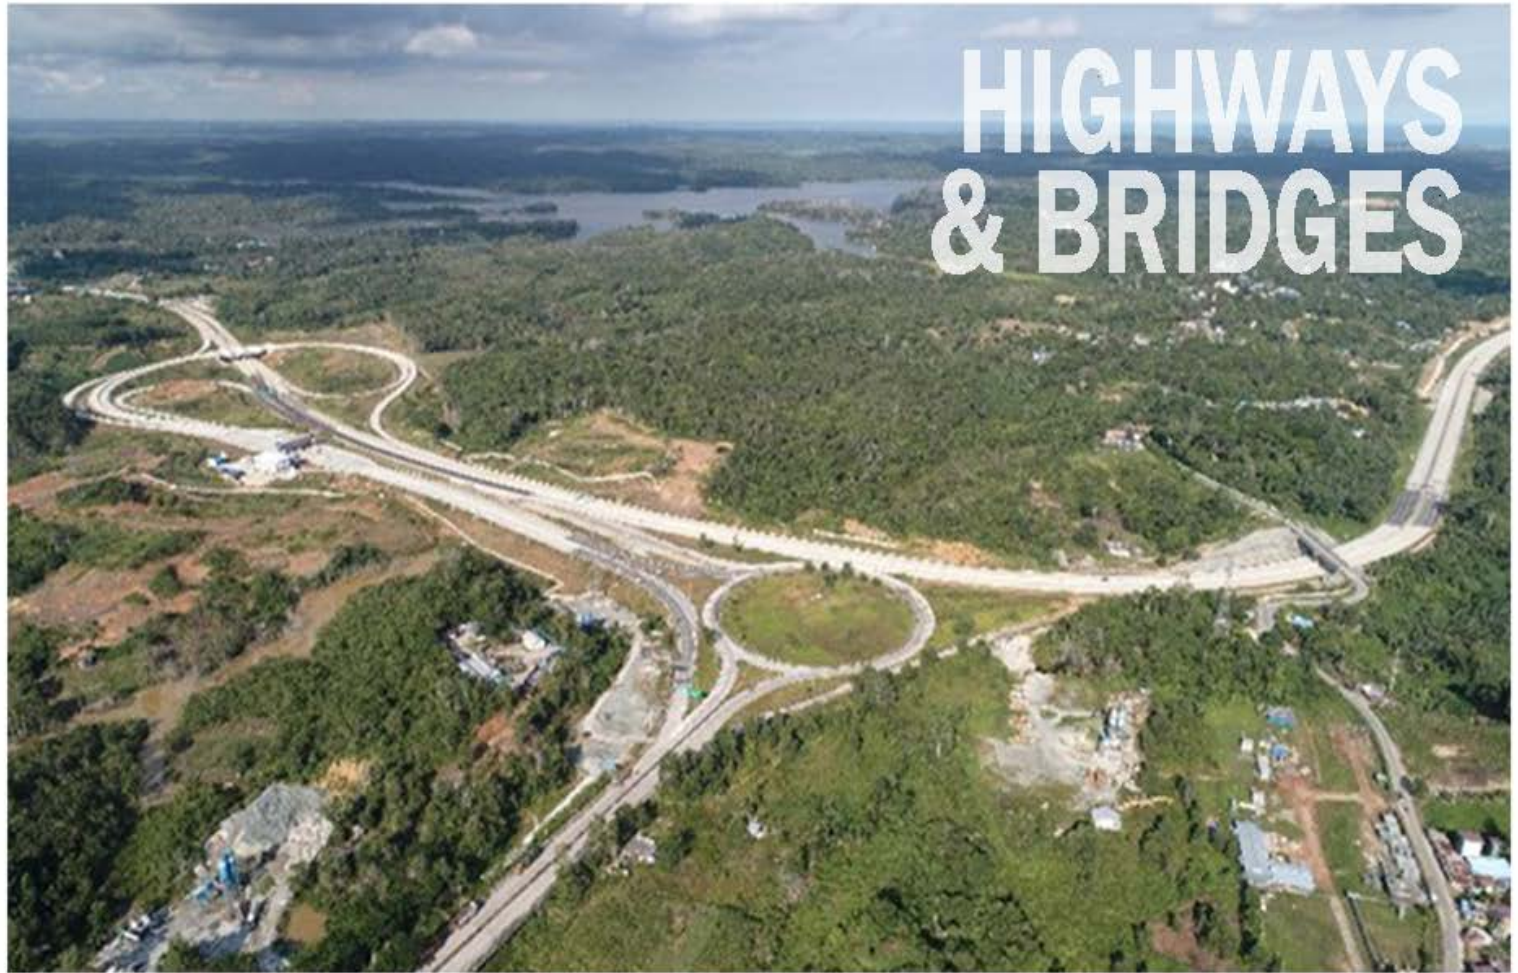

HIGHWAYS & BRIDGES

MERAH PUTIH BRIDGE

Location	: Ambon - Maluku
Client	: Ministry of Public Works Prov. Maluku
Period	: 2012 - 2015
Overview	: Merah Putih Bridge is located on Ambon Island to connect Ambon City to Pattimura Airport which divides the Ambon Strait. PT. Eskapindo Matra in association with PT. Wesitan Konsultasi Pembangunan received an assignment to oversee the special construction of middle span along 300m with a span of 75m - 150m - 75m. The middle span construction for transverse and longitudinal girder uses steel structure which is hanging to Pylon using Cable Stay.
